+ Midnight Lizard 2.2.3 (Firefox) Get a much more customized look for your web browser! Using the browser's interface to change the look of your webpages' interface is possible, but it requires you to be a savvy user. Midnight Lizard, however, gives you the tools and know-how to make it even easier. The extension uses HTML5 and CSS3 to make your browsing experience a lot more fun and customizable. Set the theme for your toolbar, bookmarks and all the other stuff on your browser, then customize them as you wish. The simplicity of the extension makes it very easy to use. Just click the 'customize' button on any webpage, and Midnight Lizard will be applied to that page. Colorful, glossy and high-contrast themes for your browser Midnight Lizard makes it very easy to change the look of all of your browser's interface. You can easily change the colors of links, text, background and borders. In addition, there are two themes available for you to select from. The extension is based on open-source technologies, and it's totally free to use. Customize all the elements with ease The extension is very easy to use. All you have to do is click the 'customize' button on any webpage you visit, and Midnight Lizard will apply the color and theme of that webpage. By downloading Midnight Lizard, you get a total of eight different themes to choose from. These themes include: Glossy and high-contrast: The Glossy theme is great for screenshots of websites you want to display in full-screen mode. The background is bright and full of color, and it has a high contrast to it. This is the default scheme available, and it's also used by the extension. Arctic-blue: The Arctic-blue theme is a light blue and very high-contrast. It has an arctic feel to it, and the colors are very bright. It's designed to be very easy on the eyes. Daylight-blue: This bright and blue-colored scheme looks like sunlight. The contrast is lowered, so it doesn't make the text look like a picture of paper. It's great for reading webpages in the day, with low-contrast and bright colors. Dark-brown: This scheme is high-contrast, and it has a dark brown color. It's darker than the other colors, but it's still very bright. It's great for reading in the evening. Grunge-dark: Like the name says, this scheme is very dark and grunge
